SWEETHEART OF A DEAL! — First 20 to sign up for all 3 classes by Valentine's Day (February 14) save \$20.00 .

I have been an obsessive quilter for over 45 years starting as a hand quilter when I was in the 8th grade. I loved the process of hand quilting but found I couldn't keep up with my quilt tops and finally had to learn to machine quilt. It was a very difficult journey, and not easy, but after many months of practice I finally got my rhythm and fell head over heels in love with the art of machine quilting.

In the late 90's I became a bit bored quilting on "regular" pieced quilt tops and decided to try my hand at quilting a tattered linen that was on my night stand. I marked it with a beautiful design, put it in my machine, and created the world's very first linen wholecloth quilt. It was a moment that changed my life forever. Not only had I created something fabulous out of an ordinary linen but it justified my huge linen stash! Now I had to make more of them!
